EYE-Q Vision Care, a large successful Central California Ophthalmology practice seeks a full-time Certified Orthoptist for a unique and rewarding position in Fresno, CA.

ABOUT THE POSITION
The Certified Orthoptist will perform sensorimotor exam in conjunction with an ophthalmic evaluation and follows up with patients in need of continuing orthoptic treatment.

The ideal candidate will be enthusiastic, enjoy working with children, and will be versatile enough for work in both comprehensive pediatric ophthalmology and adult strabismus. The Certified Orthoptist will work within our pediatric ophthalmology team.

ESSENTIAL DUTIES AND RESPONSIBILITIES (Other duties may be assigned)
- Opens and prepares the treatment room with equipment needed available and in good working order at the beginning of the day.
- Verifies charts for schedules are prepared and ready for the day.
- Escorts the patient and any necessary family members to the exam room and following guidelines the physician has designated, conducts and accurately documents a sensorimotor examination.
- Provides assessment and recommendations (from sensorimotor exam) to attending physician.

TESTING
Ability to perform the following tests and measurements, accurately and proficiently with the approval of the overseeing physician:

- Perform and interpret pediatric and adult patient screening examinations for physician review.
- History taking skills to include: chief complaint and history of present illness, current medications and allergies, directed review of systems past medical history, and pertinent family ocular history.
- Testing to include (as appropriate for each individual case): visual acuity testing (including vision assessment for infants and pediatric patients, (distance and near, with and without glasses), lensometry measurements of current glasses including prism if present), retinoscopy and manifest refraction, color vision testing, pupil and slit lamp biomicroscopy of the anterior segment, applanation or tonopen tonometry, and confrontation visual fields.
- Strabismus evaluations including sensorimotor testing, evaluation of fresnel and spectacle prisms, vergence and accommodative amplitude, and orthoptic treatment (performed independently, if appropriate). Perform other related duties incidental to the work described herein.

EDUCATION and/OR EXPERIENCE
This position requires a BS or BA degree from an accredited 4 year college program, successful completion of an American Association of Certified Orthoptists (AACO) approved 2 year Orthoptic Program, passing a written exam, and passing an Oral Board Examination. Valid, current certificate from the AACO. Continuing education credits in the field of Orthoptics is required to maintain certification.
ABOUT THE ORGANIZATION
